

# PROF. RABE- REPORT ON ERASMUS MOBILITY IN GREECE

## JOB SHADOWING AT LYCEE FRANCO – HELLENIQUE “EUGENE DELACROIX”

From May, 20 2024 until May, 24 2024 I had the great opportunity to visit for the second time this beautiful school: Lycee Franco-Hellenique “Eugene Delacroix”. It is located in Agia Paraskevi, an elegant area on the outskirts of Athens. The building is amazing, but the main feature I noticed was the variety of students nationalities that creates a thrilling atmosphere, where every student is at least trilingual.

During the first day we have been received by our Tutor, teacher Anna Racape that showed us the School and introduced us to the Principal and some other colleagues; and all of them were very friendly towards us.

Day 1: The first lesson we observed was: Presentation of Erasmus Plus Traineeship projects. Opportunities for collaboration with Italian and foreign universities in the field of international training, held by Erasmus + Cà Foscari trainee Silvia Bigai.

Second lesson was: Presentation of the “BTS tourisme international” course (ITS post diploma) Reflection on the training offer. Proposal of post-diploma courses suited to the needs of the area (Prof. Anna Racape).

Day 2: Assistance and presence in curricular lessons (in French and Italian). Reflection on school preparation for external certifications in foreign languages.

(Prof.sse Anna Racape e Béatrice Péran)

Day 3: Presentation of the IC Vittorini with reference to projects on sustainability, care of greenery and education on legality. Reflection on the possible export of pedagogical projects to others areas and nations. Passion as the driving force of life: windsurfing, a sport capable of offering unique emotions (Prof. Francesco Rabe).

Day 4: Presentation of the Italian system and school inclusion. Reflection on the professional figure of the support teacher (Prof. Emanuela Restuccia and Georgia Gounari)

Discovery of the area surrounding the school and reflection on possible future zero kilometer projects.

I'd like to spend a few words about our Tutor, teacher Anna Racape, she's simply amazing: the way she cares about people, the way she organises, all the good hints she gave us, made our stay in Athens unforgettable.

*Francesco Rabe*
